

Bankruptcy sale:

DOORIA ÅRDAL A/S
Tangevegen 7
6885 ÅRDALSTANGEN
NORWAY,

is bankrupt, on behalf of all creditors/liquidator trustee, we are working with the liquidation process and realization of the company's assets.

All machinery and equipment can be viewed/inspected on the plant in Årdalstangen, Norway. An appointment needs to be made in advance. Årdalstangen is placed 52 km east of the city, Sogndal. The closest airport to the factory-plant is Sogndal Airport: Haukåsen (SOG), a 45 minutes flight from Oslo (capital of Norway). We can arrange transport from Sogndal Airport to the plant and back, if needed.

All equipment and machinery are purchased in the period of 2007 and 2008. The factory started production medio 2007.

More information, contracts, and technical specifications on the respective production lines can be provided upon requests.

The distance between Oslo - Årdalstangen is 300 km and takes approx. 4 hours of driving (depending on the driving conditions over the mountain).

We are primarily focusing on selling the whole factory (all equipment and machinery) to one buyer. But we will assess offers on the different production, surface treatment and mounting- and packaging line. Our aim is to sell all machinery and equipment by the end of January 2012.

Payment conditions: Bank guarantee or netto cash, after the offer has been accepted. 20% after the contract is signed and the remaining 80 % of finance before dismantling of the equipment/machinery starts.

The machines and equipment are sold in the condition they are during inspection/viewing. All items (machines and equipment) are sold "as is" with no guarantee or right to claim.

The buyer is responsible for dismantling/disassemblment, transportation and insurance/assurance of the machinery/equipment after the seller accepts the offer.

It is not allowed to move or dismount any equipment or machinery before full payment is received.

All dismantling of machines and equipment have to follow health and safety regulations, and general Norwegian law. Electrical and pressured air couplings etc. shall be disconnected from the closest connection point.

Our team and the sellers have full reservation for any errors/mistakes in denomination, spelling or name in the sales prospectus.

If a buyer needs help with dismounting/transport/packaging of machinery/equipment, we are able to assist in this process, for the buyer's cost and risk.

The estate of bankruptcy has the right to refuse offers/bids made – without providing any particular grounds for the refusal.

Offers/bids are made by e-mail/fax to:

E-mail: labrenne@online.no.

Fax: +47 22 465077.

NB: This prospectus will be updated continuously with pictures.

INVENTORY:

1. Torwegge positioning gantry 5-layer/3 layer, type TB999/27/12/S, no 0-446-41-206
2. Torwegge roller table, type Profi TRR 100/45/12, no 0-446-41-0204
3. Torwegge disk type roller conveyor, type TMR 100/30/12, no 0-446-41-0205
4. Torwegge brushing machine, type RBL 100/13, no 0-449-41-0202
5. Torwegge glue application, type WHL 100/13, no 0-449-41-203
8. Torwegge belt conveyor, type TBL 100/35/14, no 0-446-41-0197
9. Torwegge belt conveyor, type TBL 100/35/14, no 0-446-41-0199
10. Torwegge feeding gantry, type TBP 200/27/12/5/S, no 0-446-41-0200
11. Torwegge roller table, type: 100/30/12, no 0-446-41-201
12. Torwegge mounting table, no 0-449-41-0196

13. Torwegge lifting table feeding, no 0-449-41-0198
21. Bargstedt moving carriage type THS800/S/40/33/14, no 0-283-10-3754
22. Bargstedt stack transport unit, type Opimat THU800/03/60/33/08, no 0-283-10-3750
23. Bargstedt moving carriage, type THS800/40/33/14, no 0-283-10-3755
25. Bargstedt stack transport unit, type Opimat THU800/03/60/33/08, no 0-283-10-3760
28. Bargstedt plane storage portal system for continuous handling of boards type Profi TFP 299/08/13, no 0-286-10-3762
32. 4 pc transport rollers no 1-199-99-9999
33. Bargstedt protective baseplate magazine type TPA 899/L/40/26/13/S, no 0-284-05-8159
40. 4 pc Homag transport rollers

COMPRESSED AIR:

138. Kaeser FF-71 D micro filter 0.001 ppm, SNR: 1243, with oil koalas pass filter, EKO-drain electronic condensate drain and differential pressure gauge. Filtration Grade: particles: 0.01 micron, oil residue (aerosols): <0.001 mh/m³. Capacity: 7.1 m³/min v / 7 bar g.
140. Kaeser PED air receiver 2000/11, SNR: 2579
141. Kaeser FF-71 D micro / activated carbon filter FFG-107, SNR: 1220, with oil filter and active carbon filter assembled, including diff. pressure gauges and automatic, sensor-controlled drainage. Capacity: 10.7 / 13.48 m³/min at 7 / 9 bar g. Filtration Grade: particles: 0.01 microns. Filtration rate: 0,001 mg/ m³
142. Kaeser Aquamat 6 oil / water separator, SNR: 3276
143. Kaeser Eco-DR.21 Plus condensation separator
